

Cover Page Formatting Example

Title:

Author Names and Affiliations:

Abstract:

Key words (5-8 max):

Main Text Formatting. Use the following format for Headings.

FIRST-LEVEL HEADING (centered, initial caps, bold)

Second-Level Heading (left aligned, initial caps, bold)

Third-Level Heading (left aligned, initial caps, italics)

Fourth-Level Heading (left aligned, initial caps, italic, underlined) (Fourth-Level Headings are discouraged. Use only if absolutely necessary.)

Example of correct formatting:

RESULTS

Model Accuracy

We evaluated the model accuracy for 20 species.....

Ponderosa Pine

In general, the models were within 10 percent accuracy for ponderosa pine, but there were differences based on variety.....

Southwestern Ponderosa Pine

The models were most accurate for.....

Rocky Mountains ponderosa pine

Pacific ponderosa pine

Longleaf Pine

Model Improvements

Ponderosa pine

Longleaf pine

Manuscript Text—Figures and tables, and appendices should be cited in the text in numerical order at first mention. **Figures and tables must *not* be embedded in the text** as this complicates our production process.

Figure Captions—List figure captions together after references. **Do *not* embed (place) figures in text.**

Tables—Do *not* embed (place) in text; submit each table in a separate Word file labeled with the table number (table 1, table 2, etc.). If there are three tables, for example, you will submit three Word files for the tables, one for each table. If tables are in Excel, all tables can be submitted in one Excel workbook.

Figures—Do not embed in text. Send each graphic, or figure, as a separate high resolution electronic file. The word “figure” is not capitalized in the text unless it begins a sentence (see Figure Standards for complete directions.) Maximum size of each file is 400 MB.
